Visitors watching the Match

Editorial League

The NYTTL is getting more exciting. The last match between DA and ITTC was an example how leagues are a very attractive event for all kind of players. Literally the club activity suddenly stopped because of the match between both teams. All players eventually stop playing their matches to watch the games. Even some visitors, new players, enjoyed the expertise and experience of the League Players. We already have seemed this reaction of the public in different clubs. We saw it in Chinatown and also in Passaic. I strongly believe that the creation of Club Leagues with the right incentives, reasonable guidelines and the exact combination of marketing / cost, will lead us to a new era in Table Tennis in US. The professional leagues are the final outcome of this experience and after that is just matter of time to having a national team competing for the first positions at world level. Also we will give a great support to all talented players all around US, which have no other opportunity than coaching of making a living with Table Tennis. US needs also the capability of training a new generation of directors and leaders in all clubs, committed with our future growth.

Editorial de la Liga

La NYTTL se pone cada vez mas entretenida. El ultimo partido entre la Asociacion Dominicana y el ITTC fue un buen ejemplo de como las ligas son un evento atractivo a todo tipo de jugadores. En algunos pasajes del encuentro todos los jugadores pararon de jugar para observar el partido de la liga, incluyendo algunos nuevos jugadores y visitas del club. Esta reaccion la hemos visto una y otra vez en diferentes lugares con Chinatown y Passaic.

Creemos que usando los correctos incentivos, politicas y marketing/cost, se podra llegar a una nueva era en el tenis de mesa en USA. Las ligas profesionales son el resultado final y despues de eso es solo cosa de tiempo para ubicar a USA compitiendo en las grandes ligas a nivel mundial. Esto traera tambien una nueva fuente de oportunidades laborales a aquellos jugadores que actualmente solo se enfocan en la ensenanza del Tenis de Mesa. USA necesita la capacidad de entrenar a una nueva generacion de dirigentes y lideres en sus clubs que esten comprometidos con el futuro desarrollo de esta diciplina deportiva.

ITTC

The New York Table Tennis League

Great, great match, the good players of DA could not overcome the experience of coach Li from ITTC who leded the team to the victory at their location in Flushing, New York. Also a great match between Mario (ITTC) and Roberto (DA). In the fourth game Mario was losing the match 1-2 and the score was 0-6. A very smart decision of taking time off, gave us the time to make some changes in the strategy. And Mario took advantage of the advices, taking the lead 8-6, Roberto with cold blood had a notable reaction winning the game for 9-11. Great Match!!!.

Chinatown - NYTTF Facing an organizational Challenge in the League

The team of Chinatown is leading the competition, but now is facing a serious challenge since Robert Chen, the club's owner is out of town. Their next match is on 09-04-09 against ITTC to be played at their location in Broadway 384 lower level. We have contacted many of the best players of NYTTF, including the young player Alston (left in picture) so they can put together the team for the next match. If they cannot have a team for next week, NYTTF will lose valuable points and the chance of winning the New York Table Tennis League.
