While the Dow Jones is going down, the NYTTL is going up. The NYTTL is a total success, from beginners with no rating to players with rating over 2500 have been playing representing their club. This is the first Club League in US-New York, the capital of the world.

We have seemed great matches and we already have the first casualty: The Fat Cat team will be not able to complete the league, they quit.

This kind of competition required the right combination: Talent and organization of every team. Remarkable is the situation of Passaic and Aero, led by Marcos and Jerry, they have been working hard to get any point possible and leading the competition.

It's very important the participation and support from the club owners and team leaders, which understand that this is the first step for a future professional league, similar to the big leagues in Europe and Asia.

It's really cool to write a Table Tennis history, specially in NY. Just the future will tell us if it was a small or big chapter.
