

#3 New York Table Tennis League 2009

The beginning of the league was a complete success!!! I think we had the most amazing matches so far in our league than ever. The honor division, justify its name, in this opportunity we had the honor to share and play with remarkable teams such us: Brownsville Strikers from Brooklyn, Dominican Association from Washington Heights, the pioneers of the league: Passaic (2008 winner), NYTTF (2002 winner) and the promising City College of New York and my old friends from ITTC.

Many players have the opportunity to play with some of the legends of Table Tennis, but I am not in that group, however we are happy and excited of having this opportunity that not one have. Many former member of national teams from different countries such us: Allan Alva (former member Peru Junior National Team), Raymundo Fermin and Maximo (formers members Dominican Republic National Team), Sergio Gonzalez (former member Chilean National Team B) and the great Atanda Musa (former member Nigeria National Team). Also others, Wasim (former Syrian National Team), Magnus (former Swedish Professional League player). The opportunity to play with these players in other places is just an impossible or you should beat many players before even think to play to players at this level. All attendees at NYTTF on last Friday enjoyed of a beautiful match between NYTTF and Brownsville Strikers, with high-level table tennis, promising players and a great exhibition of Atanda Musa. Also remarkable was the effort of City College to give a fight to the experienced players of Passaic.

It was a great surprise for me to have a pleasant reception at Dominican Association, a nice club in Washington Heights with a lot of history in different sports, especially in table tennis. The concept of Club League was totally achieved the last week, and I am very proud of being part of this. This is only the beginning of something big.

Note #1: The points are calculated using the best 5 results for every team in every match. With 2 points for wins, 1 point for lost and 0 points for non-presentation. Example: Passaic best 5 results in its match are: 5 wins, so points = 5 x 2 + 0 x 1 = 10. NYTTF best 5 results in the same match are: 4 wins + 1 lost, then points = 4 x 2 + 1 x 1 = 9, finally Dominican Association best 5 results are: 1 win + 4 lost, then points = 1 x 2 + 4 x 1 = 6. This calculation will be better for those teams that lost a match 0 – 5, in which case the points will be 5, making a difference to the teams losing matches for non- presentation with final points is 0.

Note #2: Teams may play with a minimum of 2 players but they will get 0 points for that game lost absent.
