Improvements in the League

1. The fee is still the same \$200 per team.
2. Since the league was in recess for 1 year, there are no transfer fees for season 2015 for all players, which means, that all clubs can include in its roster any player that is willing to play in their team.
3. The event will be played only once a month in the clubs that want to host the event in its location. The minimum requirements to host the event are: 4 tables with enough playing area. Also the club can charge \$8 per player for the day of the event.
4. We have included a new modality to be included in any division, based on the average score of the top three players in the team. Therefore, as before teams can be promoted or demoted in each division, but a club can also include a new team in any division, as far as there are an spot available. The divisions for 2015 are

Partnership with the Capital Area Super League in MD

I'm happy of this, a new league have been created in MD, and the NY league have partnership with them in order to play for two spots in the US Club Championships. The top 2 teams from both leagues will play in November 2015 for the two spots in Vegas. This will be only for 2015, after that the CASL will qualify directly to the Nationals. Currently I'm trying to contact the people in Boston, they are also were interested in creating a league, if they do so, we will have 3 leagues in our region. Bring me more leagues!!! the more teams , the more fun and the more meaningful will be to qualify to the finals. For those in MD or close, join that league , we will wait for you in NY (at least for this year)
